05 R包安装4

2026/3/29

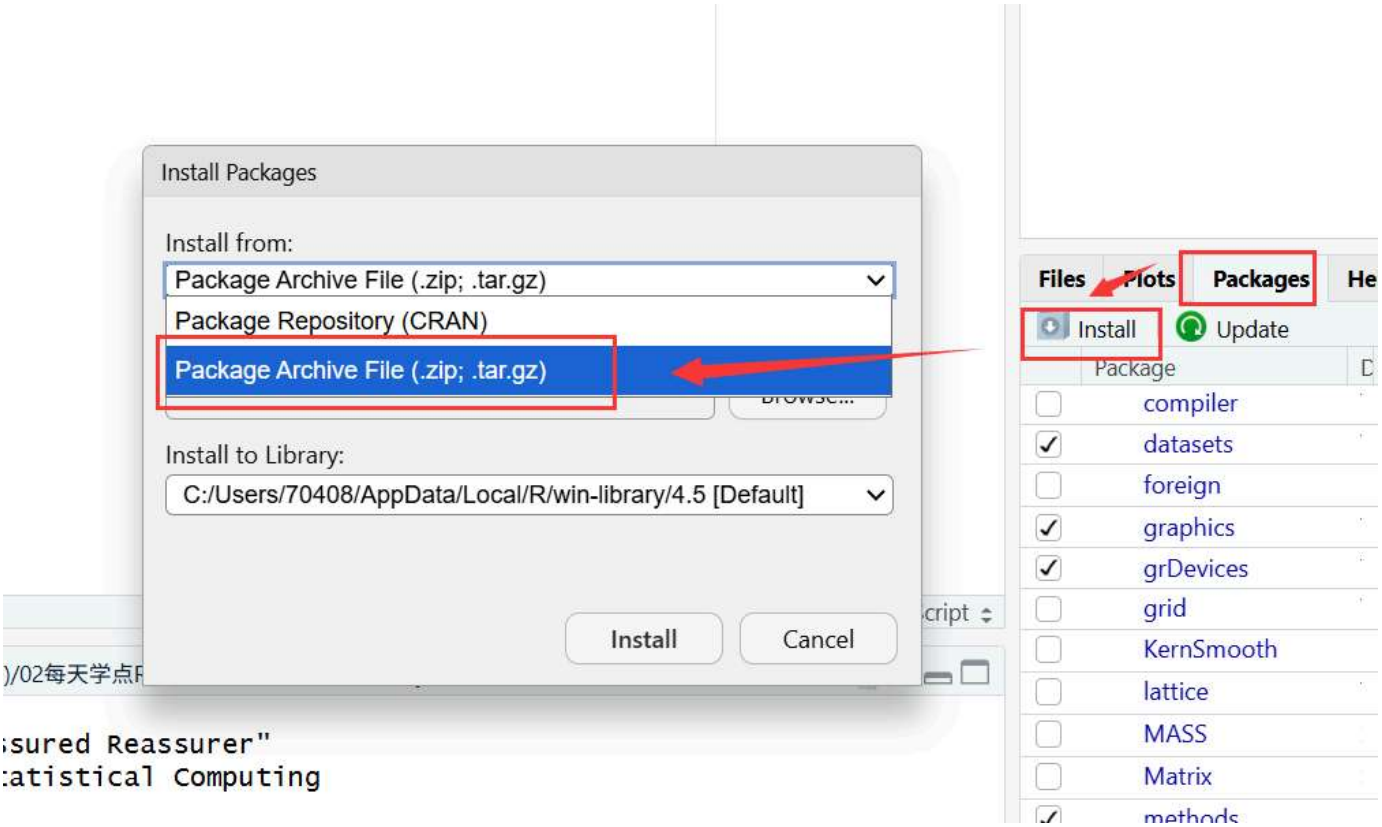
写在前面：暂无：)

安装RTools

- RTools是一个用来从源文件（也就是代码文件）编译生成`R`包的工具链，有许多包的安装都依赖这个工具（比如上节课安装失败的`bluster`），所以我们要提前安装一个。它的下载地址是：https://cran.rstudio.com/bin/windows/Rtools/rtools45/rtools.html。
    - 我已经在本地准备好了一个安装包（文件夹下的rtools45-6768-6492.exe）

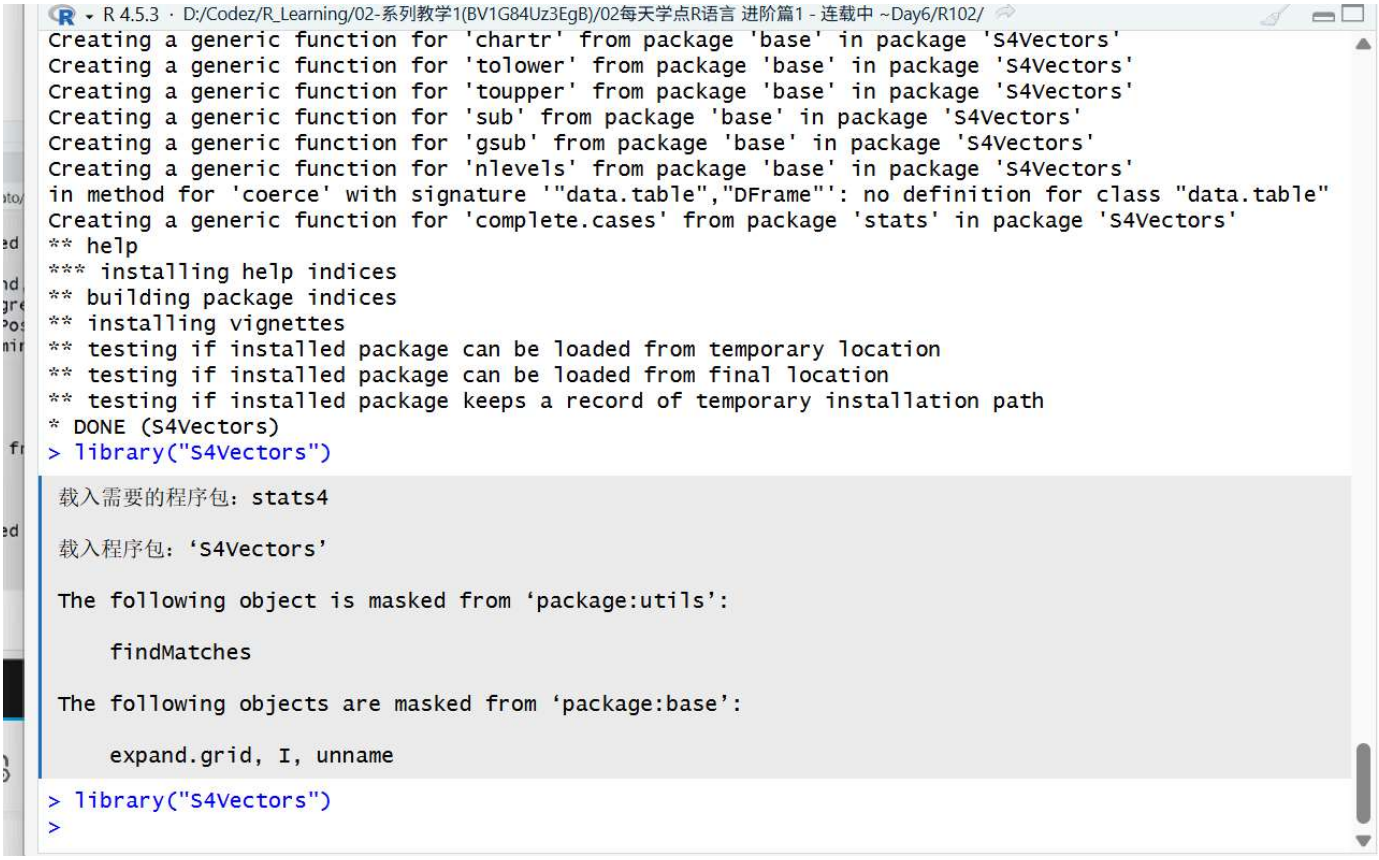
手动安装方式

- 视频里提到的`survival`包的官方地址为：https://cran.r-project.org/web/packages/survival/index.html。
    - 这个包已经下好放在本文件夹里了（survival_3.8-6.tar.gz）
- 视频里提到的`S4Vectors`包的官方的地址为：https://bioconductor.org/packages/release/bioc/html/S4Vectors.html。
    - 这个包也已经下好了（S4Vectors_0.48.0.tar.gz）
- 选择归档文件安装：



Install Packages
Install from:
Package Archive File (.zip; .tar.gz)
Package Repository (CRAN)
Package Archive File (.zip; .tar.gz)
Install to Library:
C:/Users/70408/AppData/Local/R/win-library/4.5 [Default]
Install
Cancel
Files
Plots
Packages
Install
Update
Package
compiler
datasets
foreign
graphics
grDevices
grid
KernSmooth
lattice
MASS
Matrix
methods

- 下面就安装成功啦：



R 4.5.3 · D:/Codez/R_Learning/02-系列教学1(BV1G84Uz3EgB)/02每天学点R语言 进阶篇1 - 连载中 ~Day6/R102/
Creating a generic function for 'chartr' from package 'base' in package 'S4Vectors'
Creating a generic function for 'tolower' from package 'base' in package 'S4Vectors'
Creating a generic function for 'toupper' from package 'base' in package 'S4Vectors'
Creating a generic function for 'sub' from package 'base' in package 'S4Vectors'
Creating a generic function for 'gsub' from package 'base' in package 'S4Vectors'
Creating a generic function for 'nlevels' from package 'base' in package 'S4Vectors'
in method for 'coerce' with signature '"data.table","DFrame"': no definition for class "data.table"
Creating a generic function for 'complete.cases' from package 'stats' in package 'S4Vectors'
** help
*** installing help indices
** building package indices
** installing vignettes
** testing if installed package can be loaded from temporary location
** testing if installed package can be loaded from final location
** testing if installed package keeps a record of temporary installation path
* DONE (S4Vectors)
> library("S4Vectors")
载入需要的程序包：stats4
载入程序包：‘S4Vectors’
